INTRODUCTION

P-CON Building Surveyors Pte. Ltd. is a professional building surveyors firm providing building surveying and inspection services for all types of buildings and structures in Singapore and Southeast Asia countries.

P-CON Building Surveyors Pte. Ltd. was incorporated in March 2019. The directors of the company are Chartered Building Surveyors registered with the Royal Institution of Chartered Surveyors (RICS) UK, Chartered Building Engineers registered with the Chartered Association of Building Engineers (CABE) UK, and incorporated member of the Chartered Institute of Building (CIOB) UK.

RICS is a world leading professional body in the field of land, property, construction and infrastructure. CABE and CIOB are known as the professional bodies for those specializing in the building technology.

With our clear and concise reporting format and high level of service, we have successfully completed over 300 projects comprising residential, commercial, industrial properties and infrastructure throughout Singapore. Building strong and trustworthy working relationships has enabled P-CON Building Surveyors Pte. Ltd to quickly become the preferred building surveyor for prominent clients such as Knight Frank, Jones Lang LaSalle, CBRE, Sato Kogyo, SsangYong, Hock Lian Seng, CCECC, Chye Joo, Hwa Seng, Chan & Chan, Lum Chang, Samwoh, Eng Lam, Ed. Zublin AG, LC&T, Boustead, CPC, Woh Hup, Takenaka, Tiong Seng, Aik Leong, PBT and many more.

OUR SERVICES

- Pre-Construction Condition Survey & Post-Construction Condition Survey
- Project Management of Repair & Redecoration (R&R) Works
- Building Condition Survey/ Defects Survey
- Water Seepage Survey (including thermographic scanning, water ponding test, water spray test)
- Due Diligence Survey/ Pre-Purchase Building Survey
- Pre-Leasing Condition Survey
- Dilapidation Survey

(Reg. No. 201907227C)

OUR EXPERTISE

- **Pre-Construction Condition Survey & Post-Construction Condition Survey**

We prepare a professional report which provides clients with the most accurate records of the existing condition of the buildings and structures adjoining to the proposed construction site before and/or after the commencement of the construction works. The report will assist the developers, contractors, as well as building owners to avoid dispute in the event of a claim for damage by property owners.

- **Project Management of Repair & Redecoration (R&R) Works**

To guarantee that the R&R project is completed on time, within budget, and in accordance with the standard of industry best practice, it is crucial that a qualified Chartered Building Surveyor supervise and manage the R&R Works. Our clients include Management Corporation Strata Title (MCST), REITs, Commercial, industrial & Residential Property Owners, etc.

- **Building Condition Survey/ Building Defects Survey**

An **IMPORTANT ASSESSMENT** on the physical condition of a building in particular, the building structure, fabrics and components, finishes, M&E operation systems and safety. The survey would advise on enhancing the performance and life span of a property.

There may already be a routine maintenance schedule in place, however it is advisable to conduct a Building Condition Survey to address the deficiencies in the building as a whole for better cost effective measures.

- **Water Seepage Survey**

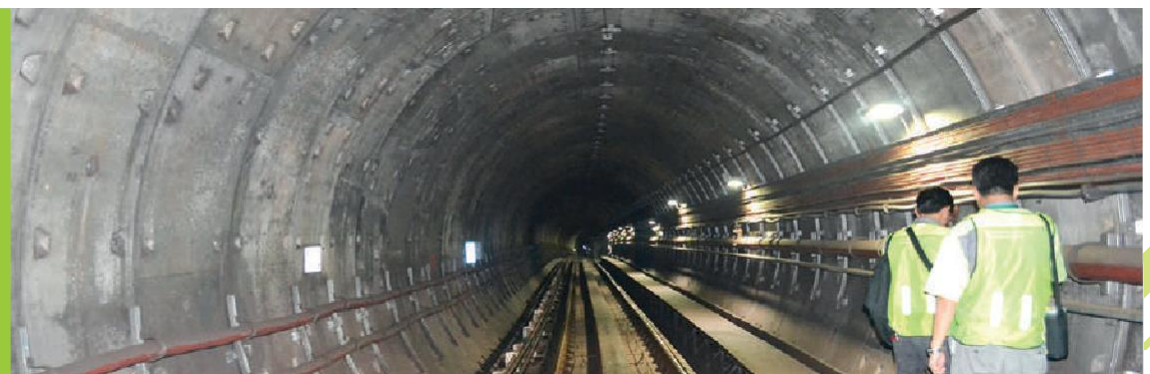

Our expert team goes beyond diagnosis to deliver tailored solutions, often enhanced by thermographic scanning, water ponding test and water spray test to accurately address water seepage and leakage concerns. This proactive approach helps prevent unnecessary expenses and the inconvenience of extensive repairs.

- **Due Diligence Survey/ Pre-Purchase Building Survey**

A Technical Due Diligence Survey is a **KEY RISK MANAGEMENT TOOL** in property acquisition and property investment for local and international property buyers. Our report will be a powerful tool in decision making for buyers and negotiation with the seller. The report includes factors that must be considered before investing in a property such as the condition of the building and structures, M&E systems, fabrics and components, finishes, services and safety requirements.

- **Pre-Leasing Condition Survey**

The report provides an accurate record for pre-leasing and/ or post-leasing agreements by recording the original condition of the property. The survey report will be able to assist the building owner and/or the tenants shall the event of a claim for damage arise. The written and photographed documentation on the pre-leasing condition of the property will be used as a comparison for the post-leasing condition survey.
